Alliance Construction Receives Contract for Denver Library

Alliance Construction Solutions has been selected to build the Green Valley Ranch Library for the City and County of Denver, according to Alliance President Bill Joyner.

The 24,000 square foot, steel-framed building will be located on a two-acre site at 4856 N. Andes Court in Denver.

Joyner said the approximately \$4 million project has an eight month construction schedule beginning in March. He added the library will be built under the Greenprint Denver plan and is designed to receive LEED Certification from the U. S. Green Building Council.

A groundbreaking event is planned for Saturday, March 13, 2010.

Alliance Construction Solutions is a full-service general contractor with offices in Loveland, Denver and Cheyenne.
