RECRUITMENT CHALLENGES

- Difficulty attracting:
 - Talent from Denver and from coasts
 - C-Level executives
 - Young professionals
- Reliable workers to fill jobs with high physical requirements – warehouse, waste collection, construction laborers
- Workers that can pass the drug test most often fail due to marijuana use
- Low-wage services food services, housekeeping

RETENTION CHALLENGES

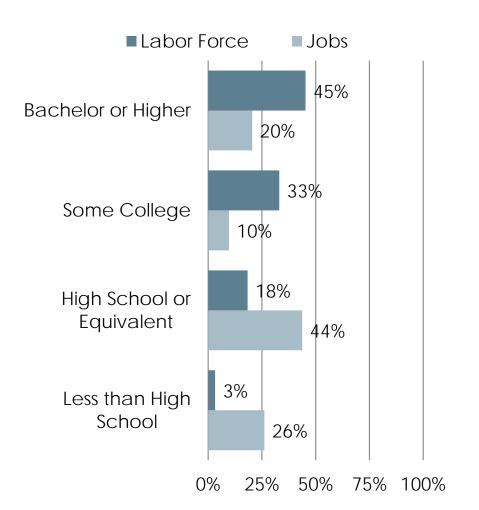

- Underemployment means that overqualified workers are always looking for a better job
- Generational expectations
- Young professional gap

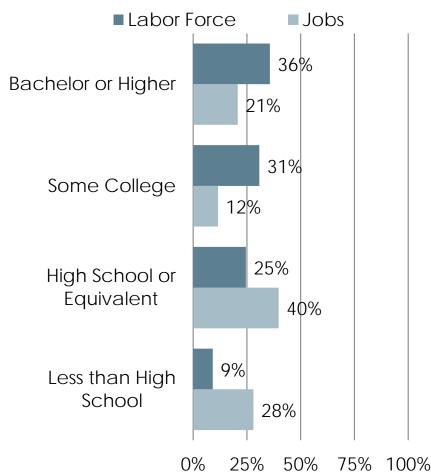

EVIDENCE OF UNDEREMPLOYMENT

EDUCATIONAL REQUIREMENTS OF JOBS VS ATTAINMENT OF LABOR FORCE

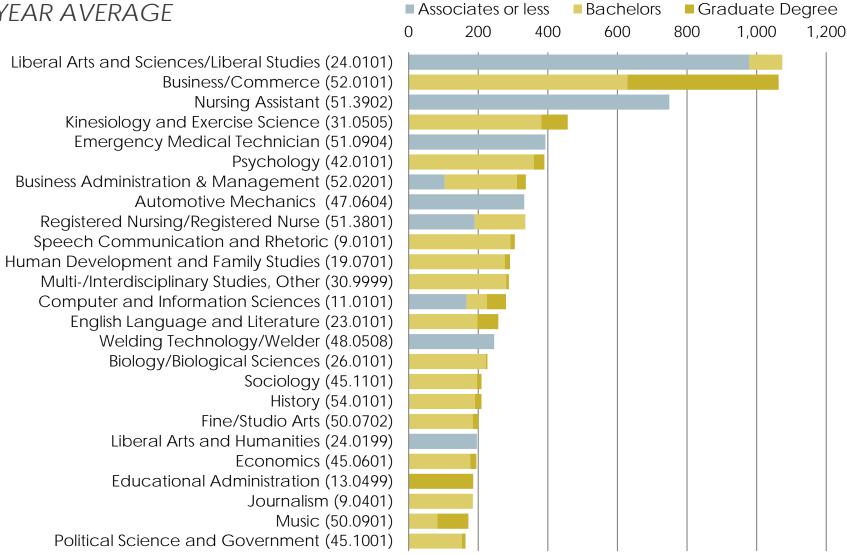

PIPELINE CHALLENGES

- Awareness of resources
- Employer engagement & input
- Finding instructors nursing, computer science
- Student choices
 - Awareness of non 4-year opportunities
 - Choice of majors at CSU and UNC

MOST POPULAR MAJORS

TOP 25 LARGEST FIELDS OF STUDY, 3-YEAR AVERAGE

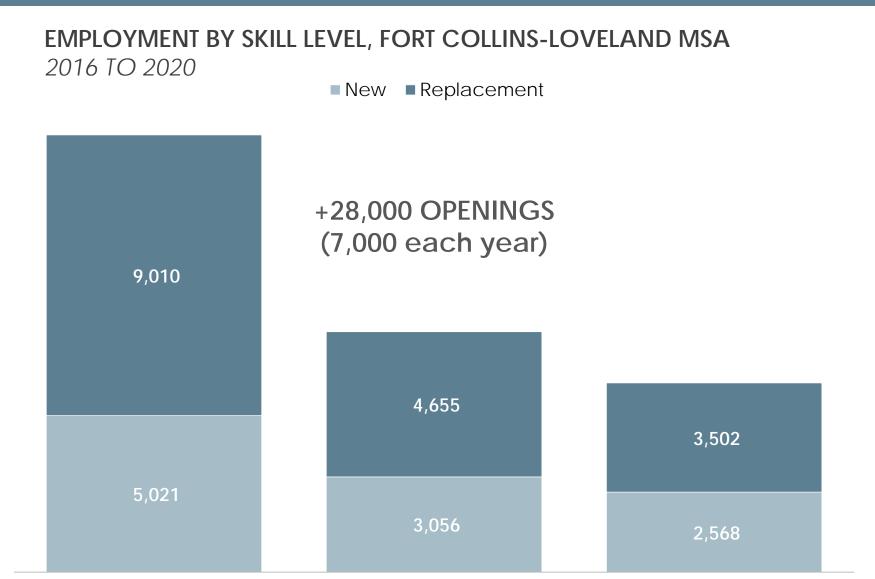

STRUCTURAL CHALLENGES

- Housing affordability at all income levels
 - Purchase & rental
- Quality childcare for affordable prices
- Transportation/mobility: traffic makes Denver farther away

CHALLENGE #2: CONTINUED TIGHTENING

Over next 5 years, employers will have at least 28,000 openings to fill. The labor force adds only about 2,000 to 3,000 workers each year. A continuation of this trend would leave an estimated shortfall of about 5,000 workers.

CHALLENGE #3: AGING WORKFORCE In many key occupations, more than 25% of the workers are 55 or older. With the wave of likely retirements, employers will need to start succession planning now in order to prepare for the loss of those key individuals.
